

DOI Work Activity M1: Assess Invasive Species

Program Area:	Knowledge Advancement
End Outcome Goal:	PEO 2 – Sustain Biological Communities on DOI Managed and Influenced Lands and Waters in a Manner Consistent with Obligations Regarding the Allocation and Use of Water
Intermediate Outcome:	This activity does not align to an intermediate outcome
DOI Sub process:	1b - Create information from data (perform analysis)

Examples/Notes:

Work Activity Description: Investigations and scientific studies that evaluate the status, growth trends, and other relevant aspects of indigenous or non-indigenous species; may be conducted on a wide range or geographic basis. Activities may include collection, analysis, management, interpretation, and synthesis of data to produce an assessment. Invasive species must present a clear or likely threat to non-invasive species in the area.

Excludes environmental consultations work, work directly with other species in the area (e.g. non-invasive, threatened and endangered or species of management concern, and treatment work done in the field to eradicate, control, or prevent Invasive Species.

Output: Acres assessed	Unit of Measure: Number of acres accessed
Inputs:	Cost Drivers:
